

Senior full-stack PHP Engineer

We are looking for a Senior full-stack PHP Developer to join our united, dedicated, and enthusiastic team at LINK Mobility, Europe's leading provider of mobile messaging.

At LINK, we connect businesses to customers through our communications products and services that drive engagement and satisfaction during each stage of the customer journey.

You are already familiar with us: we are behind the messages you receive via SMS, WhatsApp, email, or even to check-in for your upcoming flight, receive delivery notifications, cash in a mobile coupon to your favorite store, and so much more.

It is an exciting time to join LINK as we develop our award-winning communications platform as a service (CPaaS) offerings in this rapidly advancing tech industry.

POSITION OVERVIEW

As a full-stack Senior PHP developer, part of a cross-functional agile team, you will have a significant role in our growing Engineering department supporting the development of a new communication platform.

In close cooperation with other developers and Product Owners, you will work throughout the full software development life cycle - design, development, coding, customization, configuration, testing, and deployment in support of enterprise packaged solutions.

YOU'LL BE RESPONSIBLE FOR

- Write clean, scalable modules and maintain unit and functional tests using PHP and Javascript
- Building reusable components and front-end libraries for future use based upon UI/UX wireframes
- Collaborate with team to produce software design and architecture
- Translate application storyboards and use cases into functional applications
- Identify bottlenecks and bugs, and devise solutions to mitigate and address these issues
- Develop documentation throughout the software development life cycle
- Ensure the best possible performance, quality, and responsiveness of applications
- Solve complex performance problems and architectural challenges

WE HOPE YOU HAVE

- PHP Proficiency - Extensive experience with PHP (versions 7.x and 8.x) and CodeIgniter 4 / Laravel framework
- Experience in JavaScript and jQuery
- Experience in HTML and CSS
- Strong understanding of object-oriented programming (OOP) principles
- Experience with design patterns in software development
- Strong skills in using relational and non-relational databases (mysql, elasticsearch).
- Proficiency in Git, including branching and merging strategies.
- BS/MS degree in computer science, software engineering, or equivalent with programming experience
- Fluency in English

NICE TO HAVE

- Experience with Bootstrap / Responsive design
- Experience building JavaScript/CSS Frameworks or shared component libraries used in large scale production websites
- Experience in Angular FE implementations.
- Experience in REST software architecture style
- Microservice's architecture
- Experience with SaaS
- Experience with Google Cloud Platform

OUR IDEAL MATCH IS

- Has a keen eye for detail and problem-solving skills

- High energy, driven and a powerful desire for success
- Effective communication & collaboration skills, and readiness to work in multicultural environment
- Eager to share knowledge with your team
- Positive attitude, keeping calm in demanding situations

WE CAN OFFER YOU

- A dynamic, international work environment
- Growth opportunities supporting personal and professional development
- Hybrid work plan with home office/distant working
- Annual bonus eligibility based on achieved targets
- Eligibility to enroll in LINK's employee share purchase program, which provides a 20% discount on company stock purchased by permanent employees

**All benefits are subject to local terms and regulations and may be changed during the employment*

LOCATION: Skopje / Kumanovo, North Macedonia

Apply as soon as possible. Applications are evaluated on an ongoing basis.

LINK Mobility is publicly listed on the Oslo Stock Exchange with offices in 18 countries throughout Europe. We continue to experience strong organic growth and recurring revenue as businesses move more activities onto mobile platforms. In 2023, LINK Mobility had a total turnover of 6.3 billion NOK.

Every employee is an important member of LINK Mobility. We do not tolerate discrimination of any kind – whether active or passive – based on ethnicity, national origin, religion, disability, gender, sexual orientation, marital or parental status, union membership, political views, age, or any other characteristic that results in compromising the principle of equality. LINK regards diversity as a lever for innovation and profitability.
