

UAT Specialist

We're looking for **User Acceptance Test Specialist** to join our united, dedicated, and enthusiastic team at LINK Mobility, Europe's leading provider of mobile messaging.

At LINK, we connect businesses to customers through our communications products and services that drive engagement and satisfaction during each stage of the customer journey.

You're probably already familiar with us: we're behind the messages you receive via SMS, WhatsApp, email, or even to check-in for your upcoming flight, receive delivery notifications, cash in a mobile coupon to your favorite store, and so much more.

It's an exciting time to join LINK as we develop our award-winning communications platform as a service (CPaaS) offerings in this rapidly advancing tech industry.

We are seeking a detail-oriented and proactive **User Acceptance Testing (UAT) Specialist** to join our team. The UAT Analyst will be responsible for coordinating, planning, and executing UAT activities to ensure that business requirements are met and systems are ready for production. This role is a key bridge between business users and technical teams and plays a vital role in the final phase of the testing lifecycle.

YOU'LL BE RESPONSIBLE FOR

- Collaborate with product owners, developers, and end-users to understand functional and business requirements.
- Develop comprehensive UAT test plans, test cases, and test scripts based on business requirements and user stories.
- Execute and deliver UAT test cases and document actual results, logging defects and issues in the appropriate tracking tools.
- Work with stakeholders to ensure issues are resolved before the system goes live.
- Coordinate with IT teams and business users to schedule and conduct UAT sessions.
- Provide regular status reports and escalate issues/risks as needed.
- Participate in requirement reviews and design sessions to ensure testability.
- Validate fixes and perform regression testing as needed.
- Support go-live activities and post-implementation validation.

WE HOPE YOU HAVE

- 3+ years of experience in UAT, QA, or a business analysis role.
- Experience working in Agile/Scrum environments.
- UAT certification (e.g., ISTQB, IIBA) is a plus.
- Strong analytical and problem-solving skills.
- Excellent attention to detail and organizational skills.
- Familiarity with defect tracking tools (JIRA)
- Basic understanding of software development lifecycle (SDLC).
- Effective communication and interpersonal skills to work with both technical and non-technical stakeholders.
- Ability to work independently and manage multiple priorities in a fast-paced environment.
- Fluent in English and French (both written and spoken).

OUR IDEAL MATCH IS

- High energy, driven and a strong desire for success,
- Business-oriented with the ability to understand the value chain and business model of the customers,
- Excellent communication and interpersonal skills,
- Positive attitude, and ability to create enthusiasm and dedication among colleagues and customers,
- Integrity and courage to speak up when required, while keeping calm in demanding situations.

WE CAN OFFER YOU

- A dynamic, international work environment
- Growth opportunities supporting personal and professional development
- Contribution to health coverage
- Contribution to lunch expenses
- Eligibility to enroll in LINK's employee share purchase program, which provides a 20% discount on company stock purchased by permanent employees

*All benefits are subject to local terms and regulations and may be changed during the employment

LOCATION: Boulogne Billancourt, France

Apply as soon as possible. Applications are evaluated on an ongoing basis.

LINK Mobility is publicly listed on the Oslo Stock Exchange with offices in 18 countries throughout Europe. We continue to experience strong organic growth and recurring revenue as businesses move more activities onto mobile platforms. In 2023, LINK Mobility had a total turnover of 6.3 billion NOK.

Every employee is an important member of LINK Mobility. We do not tolerate discrimination of any kind – whether active or passive – based on ethnicity, national origin, religion, disability, gender, sexual orientation, marital or parental status, union membership, political views, age, or any other characteristic that results in compromising the principle of equality. LINK regards diversity as a lever for innovation and profitability.
