Senior Full Stack Development Engineer Web - PHP

We're looking for **Senior Full Stack Development Engineer Web** to join our united, dedicated, and enthusiastic team at LINK Mobility, Europe's leading provider of mobile messaging.

At LINK, we connect businesses to customers through our communications products and services that drive engagement and satisfaction during each stage of the customer journey.

You're probably already familiar with us: we're behind the messages you receive via SMS, WhatsApp, email, or even to check-in for your upcoming flight, receive delivery notifications, cash in a mobile coupon to your favorite store, and so much more.

It's an exciting time to join LINK as we develop our award-winning communications platform as a service (CPaaS) offerings in this rapidly advancing tech industry.
As a Senior Full Stack Development Engineer Web, you will have an important role within the Spot Hit team and platform. You will be responsible for the evolution of the actual platform by improving the existing code to make it more efficient and more evolutive. You will analyze and develop specific projects on behalf of our biggest clients. You will share with the rest of the team your experience, knowledge, and good practices. Each member of the team will be responsible for the coding review.

YOU'LL BE RESPONSIBLE FOR

- Participate in the definition and analysis of needs,
- Conceive efficient, scalable, reliable, and reusable coding,
- Participate in the entire production life cycle of backend and frontend applications for our messaging business,
- Ensure the best performance, quality, and reactivity possible of the applications,
- Share information with the rest of the team and provide solid technical information.

WE HOPE YOU HAVE

- More than 5 years of experience in back and frontend Development
- Engineering studies
- Good interpersonal Skills and communication
- Good English level (both written and spoken)
- Knowledge of the Symfony framework
- Knowledge on: PHP CSS HTML MySQL JQuery Linux server GitLab Twig

OUR IDEAL MATCH IS

- High energy, driven and a strong desire for success,
- Business-oriented with the ability to understand the value chain and business model of the customers,
- Excellent communication and interpersonal skills,
- Positive attitude, and ability to create enthusiasm and dedication among colleagues and customers,
- Integrity and courage to speak up when required - while keeping calm in demanding situations.
-

WE CAN OFFER YOU

- A dynamic, international work environment
- Growth opportunities supporting personal and professional development
- Hybrid working routine (2 days at the office and 3 days at home)

*All benefits are subject to local terms and regulationsand may be changes during the employment

Apply as soon as possible. Applications are evaluated on an ongoing basis.

LINK Mobility is publicly listed on the Oslo Stock Exchange with offices in 18 countries throughout Europe. We continue to experience strong organic growth and recurring revenue as businesses move more activities onto mobile platforms. In 2023, LINK Mobility had a total turnover of 6.3 billion NOK.

Every employee is an important member of LINK Mobility. We do not tolerate discrimination of any kind – whether active or passive – based on ethnicity, national origin, religion, disability, gender, sexual orientation, marital or parental status, union membership, political views, age, or any other characteristic that results in compromising the principle of equality. LINK regards diversity as a lever for innovation and profitability.
