

# Senior Full Stack Developer

We are looking for a talented and experienced Senior Full Stack Developer to join our united, dedicated, and enthusiastic team at LINK Mobility, Europe's leading provider of mobile messaging. At LINK, we connect businesses to customers through our communications products and services that drive engagement and satisfaction during each stage of the customer journey. You are already familiar with us: we are behind the messages you receive via SMS, WhatsApp, email, or even to check-in for your upcoming flight, receive delivery notifications, cash in a mobile coupon to your favorite store, and so much more. It is an exciting time to join LINK as we develop our award-winning communications platform as a service (CPaaS) offerings in this rapidly advancing tech industry.

## POSITION OVERVIEW

As a **Senior Full Stack Developer** who excels in both **Frontend (React.js)** and **Backend (Laravel PHP)** development, you will play a critical role in building and maintaining scalable, performant, and secure web applications across the stack.

You'll work closely with cross-functional teams, contribute to architectural decisions, and help deliver clean, modern solutions — from robust APIs to beautiful, responsive UI interfaces.

## YOU'LL BE RESPONSIBLE FOR

- Design, develop, and maintain robust full stack web applications using **React.js** and **Laravel (PHP)**.
- Build high-performance, reusable frontend components with **HTML5**, **CSS3**, and modern JavaScript frameworks.
- Architect and implement scalable, secure backend services and APIs.
- Design and optimize complex **MySQL** (or other database) schemas and queries to ensure data integrity and performance.
- Develop and execute **unit tests** to ensure code reliability, maintainability, and performance.
- Build and manage **CI/CD pipelines** using **Azure Pipelines**, automating deployments and ensuring smooth delivery processes.
- Containerize applications and manage environments using **Docker** and **Kubernetes** for efficient development and production scalability.
- Collaborate using **Git**, **Bitbucket**, and code review workflows to maintain clean, well-documented codebases.
- Work closely with UI/UX teams and leverage tools like **Storybook** to integrate design systems into development.
- Support and mentor team members through technical guidance, code reviews, and knowledge sharing.
- Stay up to date with the latest technologies and propose improvements to tools, architecture, and development practices.
- Participate actively in sprint planning, stand-ups, and cross-functional discussions.

## WE HOPE YOU HAVE

- 5+ years of experience in full stack web development.
- Strong skills in **React.js**, **Laravel PHP**, **HTML5**, and **CSS3**.
- Proficiency in building reusable UI components and modern layouts.
- **Great experience designing, querying, and optimizing databases** — especially **MySQL**, but familiarity with other relational and NoSQL databases is a strong plus.
- Experience writing and maintaining **unit tests** (Jest, PHPUnit, etc.).
- **Hands-on experience building and maintaining CI/CD pipelines using Azure Pipelines**, with a strong understanding of modern DevOps workflows and automation best practices.
- Proficiency with **Docker** and **Kubernetes** in development and production environments.
- Excellent command of **Git**, **Bitbucket**, and branching strategies.
- Working knowledge of **Node.js** (for tooling or backend services).

- Experience with or interest in **TypeScript** and other modern technologies.
- Familiarity with **Storybook** or other component libraries/design systems (a plus).
- Fluency in English

#### **OUR IDEAL MATCH IS**

- Has a keen eye for detail and problem-solving skills
- High energy, driven and a powerful desire for success
- Strong communication & collaboration skills, and readiness to work in multicultural environment
- Eager to share knowledge with your team
- Positive attitude, keeping calm in demanding situations

#### **WE CAN OFFER YOU**

- A dynamic, international work environment
- Growth opportunities supporting personal and professional development
- Hybrid work plan with home office/distant working
- Annual bonus eligibility based on achieved targets
- Eligibility to enroll in LINK's employee share purchase program, which provides a 20% discount on company stock purchased by permanent employees

*\*All benefits are subject to local terms and regulations and may be changed during the employment*

#### **LOCATION: Kumanovo/Skopje, North Macedonia**

Apply as soon as possible. Applications are evaluated on an ongoing basis.

**LINK Mobility** is publicly listed on the Oslo Stock Exchange with offices in 18 countries throughout Europe. We continue to experience strong organic growth and recurring revenue as businesses move more activities onto mobile platforms. In 2023, LINK Mobility had a total turnover of 6.3 billion NOK.

*Every employee is an important member of LINK Mobility. We do not tolerate discrimination of any kind – whether active or passive – based on ethnicity, national origin, religion, disability, gender, sexual orientation, marital or parental status, union membership, political views, age, or any other characteristic that results in compromising the principle of equality. LINK regards diversity as a lever for innovation and profitability.*
