

# Junior Backend Developer (PHP)

At LINK, we connect businesses to customers through our communications products and services that drive engagement and satisfaction during each stage of the customer journey.

You're probably already familiar with us: we're behind the messages you receive via SMS, WhatsApp, email, or even to check-in for your upcoming flight, receive delivery notifications, cash in a mobile coupon to your favorite store, and so much more.

**As a Junior Backend Developer**, you will be part of our team of code geniuses! Your work will contribute to the improvement and maintenance of the SMSAPI platform, which is part of a European leader in mobile communication in the areas of mobile messaging, mobile solutions, and mobile intelligence. Your responsibilities will include writing clean code, designing, and developing new features for the SMSAPI platform.

Your responsibilities:

- Developing new functionalities for the SMSAPI platform
- Actively participating in the analysis, design, and testing phases
- Continuously improving your skills through regular code reviews
- Refactoring
- Analyzing current system issues
- Learning to write automated tests
- Collaborating with the entire IT team (Frontend, Backend, Testers, Admins, DevOps, Product Management)

Technologies we use daily:

- PHP 8
- CI/CD
- Docker
- RabbitMQ
- ELK
- MongoDB
- MySQL
- Redis

Your strengths:

- You have at least 1 year of experience in a similar role
- Basic understanding of PHP
- You are familiar with best programming practices (TDD, BDD, DDD, SOLID)
- You are comfortable with version control systems

We offer:

- Hybrid work model (2–3 remote days per week after onboarding)
- Flexible working hours
- Co-financed private medical care (Medicover)
- Co-financed Multisport card
- Co-financed Life insurance
- Team-building events
- Additional day off on your birthday
- Additional employer's PPK contribution
- Holiday bonus
- Free parking
- Lunches on Wednesdays and Fridays
- Fresh fruit in the office
