

Front-EndAngular Developer

LINKMobilityGroupAS is one of Europe's leading mobile-communications providers, specializing in CPaaS, mobile messaging services, and mobile solutions. The Group offers a wide range of scalable services and solutions across industries and sectors due to a growing demand for digital convergence between businesses and customers, platforms, and users. The Group is headquartered in Oslo, Norway and is publicly listed on the Oslo Stock Exchange. LINK Mobility continues to experience strong organic growth with a high degree of recurring revenue, as customers tend to move more business activities onto mobile platforms. In 2019, LINK Mobility had a total turnover of 2.9 billion NOK with offices in 17 different countries.

@LINK Mobility we live by three core values that drive our business and people: United, Dedicated and Enthusiastic. When working @LINK you appreciate diversity, cross-border collaboration and solving complex challenges in a high growth environment. Our people are knowledgeable, curious, and agile team players who strive to consistently deliver the best mobile messaging solutions for our customers.

Position overview

- As a Front-End Angular Developer, you will join our R&D team composed of experienced software engineers following Scrum methodology and working together with our Product team to build innovative and robust messaging solutions running on AWS cloud and on-premises.

Responsibilities

- Collaborate with the Product team to refine UI/UX requirements and elevate solutions.
- Work closely with front-end and back-end peers to deliver cohesive features.
- Translate wireframes into responsive, production-ready interfaces.
- Build and refine features in Angular18+ with TypeScript, modernJS, HTML5, andCSS/SCSS.
- Deliver pixel-perfect polish, fast load times, accessibility, and cross-browser consistency.
- Apply established UI/UX principles and component design patterns.
- Write Playwright e2e tests and integrate with CI/CD pipelines.
- Review code, share knowledge, and maintain clean architecture.
- Produce clear technical documentation.

Your Experience

- 5+years' experience building web sites with Angular and modern JavaScript.
- Hands-on performance tuning, accessibility, and cross-browser compatibility.
- Proven success in agile teams where front-end choices drive user satisfaction.

Your Qualifications

- Strong foundation in UI/UX, component patterns, and web security.
- Engineering degree (or equivalent).
- Fluent English (written & spoken).

Our Perfect Match:

- High energy, driven and a strong desire for success,
- Business-oriented with the ability to understand the value chain and business model of the customers,
- Excellent communication and interpersonal skills,
- Positive attitude, and ability to create enthusiasm and dedication among colleagues and customers,
- Integrity and courage to speak up when required while keeping calm in demanding situations.

Every employee is an important member of the LINK Family. We do not accept any discrimination, whether active or by means of passive support, whether based on ethnicity, national origin, religion,

disability, gender, sexual orientation, marital or parental status, union membership, political views, age or any other characteristic that results in compromising the principle of equality. LINK Mobility regards diversity as a lever for profitability.
