

PHP/ Symfony Development Engineer

We're looking for **PHP/ Symfony Development Engineer** to join our united, dedicated, and enthusiastic team at LINK Mobility, Europe's leading provider of mobile messaging.

At LINK, we connect businesses to customers through our communications products and services that drive engagement and satisfaction during each stage of the customer journey.

You're probably already familiar with us: we're behind the messages you receive via SMS, WhatsApp, email, or even to check-in for your upcoming flight, receive delivery notifications, cash in a mobile coupon to your favorite store, and so much more.

It's an exciting time to join LINK as we develop our award-winning communications platform as a service (CPaaS) offerings in this rapidly advancing tech industry.

As a Development Engineer, you will join our R&D team composed of experienced software engineers following Scrum methodology and working hand-in-hand with Product Marketing team to build innovative and robust messaging solutions running on AWS cloud.

YOU'LL BE RESPONSIBLE FOR

- Participate to the definition and analysis of needs,
- Conceive efficient, scalable, reliable, and reusable code. Implement and promote best software engineering practices: design patterns, security by design, responsive design, TDD...
- Participate in the entire production life cycle of backend and frontend applications for our messaging business (full-stack PHP/Symfony using AWS serverless/managed services),
- Ensure the best performance, quality, cost efficiency possible of the applications,
- Share information with the rest of the team and provide solid technical documentation.

WE HOPE YOU HAVE

- 5+years of professional experience in PHP (Symfony) and modern JavaScript, HTML and CSS.
- Genuine enthusiasm for front-end engineering - UI polish, performance, accessibility - and a strong desire to keep learning in this area.
- Solid grasp of UI/UX fundamentals; able to translate wireframes into production-ready interfaces.
- Strong understanding of algorithms, security practices, networking, and design patterns.
- Fluent English for daily collaboration (both written and spoken).

OUR IDEAL MATCH IS

- High energy, driven and a strong desire for success,
- Business-oriented with the ability to understand the value chain and business model of the customers
- Excellent communication and interpersonal skills,
- Positive attitude, and ability to create enthusiasm and dedication among colleagues and customers,
- Integrity and courage to speak up when required, while keeping calm in demanding situations.

WE CAN OFFER YOU

- A dynamic, international work environment
- Growth opportunities supporting personal and professional development
- Contribution to health coverage
- Contribution to lunch expenses
- Eligibility to enroll in LINK's employee share purchase program, which provides a 20% discount on company stock purchased by permanent employees

*All benefits are subject to local terms and regulations and may be changed during the employment

LOCATION: Boulogne-Billancourt, France

Apply as soon as possible. Applications are evaluated on an ongoing basis.

LINK Mobility is publicly listed on the Oslo Stock Exchange with offices in 18 countries throughout Europe. We continue to experience strong organic growth and recurring revenue as businesses move more activities onto mobile platforms. In 2023, LINK Mobility had a total turnover of 6.3 billion NOK.

Every employee is an important member of LINK Mobility. We do not tolerate discrimination of any kind – whether active or passive – based on ethnicity, national origin, religion, disability, gender, sexual orientation, marital or parental status, union membership, political views, age, or any other characteristic that results in compromising the principle of equality. LINK regards diversity as a lever for innovation and profitability.
